## Student Device Resource Scheme Information Sheet

In 2023, Woree State High School has introduced a Laptop Resource Scheme for students who are enrolled in laptop classes and are unable to purchase a laptop independently (BYOx).

The goal for the scheme is to provide technology options that are affordable to families while, at the same time, meeting the needs of our staff, students and school.

Woree SHS feel our scheme supports families who are unable to BYO devices and provides the best option for device configuration, student safety, efficient technical support, minimising and supporting cost for families and strong student outcomes.

Full details and payment schedules are included in the **Student Device Resource Scheme Handbook and Charter** which available from our website <https://woreeshs.eq.edu.au/> or from the School Administration during office hours.

### Benefits of our scheme.
