

SchoolTech

Excellence in school-based Vocational Education and Training for Year 11 and 12

Real Stories

Real Achievements

Joeshiah's Story | Automotive

During Year 10, Joeshiah heard that he could come to SchoolTech to do work experience and school at the same time. This meant he could get a head start in his trade as well as gaining a QCE. He had always been keen on automotive, trucks and machinery, so it was a perfect opportunity.

In February of Year 12, Joeshiah was signed up as a school-based apprentice. A few months out of school and he is now a second year apprentice. He believes that if he had not enrolled in SchoolTech he probably wouldn't have a job now. His two years (Year 11 and 12) at SchoolTech gave him invaluable work experience and trade skills.

"Each week the mechanics worked with me to teach me all the skills I need to know. When I went full-time I knew what I was doing straight away."

His advice to anyone considering study at SchoolTech is:

"Go for it if you are looking to learn a trade while you are at school and gain your QCE."
